

Shimadzu Other Training Courses

We conduct seminars and workshops focused on specific applications. The agenda and schedule for the same could be declared as and when planned. We also offer other customized training courses based on any specific request for the following instruments:

ELEMENTAL ANALYSIS

ICPE-9800 Series - Simultaneous ICP Atomic Emission Spectrometers

ICP-MS-2030 - Ultra Fast Mass Spectrometry

EDX 7200 - Energy Dispersive X-Ray Fluorescence

PDA 5000 - Optical Emission Spectrometer

PHYSICAL TESTING

Texture Analyzer

Universal Testing Machine and Trapezium V software

HMV-G series Micro Vickers Hardness Tester

THERMAL & PARTICLE SIZE ANALYSIS

SALD 2300 - Laser Diffraction Particle Size Analyzer

DTG-60 / DSC-60 plus
